## PROGRAM INTRODUCTION AND OBJECTIVES

This is a commitment by the undersigned to advance the following conceptual agreement in the mutual interest of improving public safety:

1. The number of adult offenders returning to the County of \_\_\_\_\_ (the "County") from state prison in calendar year \_\_\_\_\_ was approximately \_\_\_\_\_ (*California Department of Corrections and Rehabilitation (CDCR) Offender Information Service Data Report*). Many of these returning offenders were in need of improved programs and services in order to reintegrate successfully into their communities. The number of adult offenders returning to the County during calendar year 2006 will likely be the same or more. The recidivism rate for County offenders returning to prison with new prison terms is \_\_\_\_\_ (ex: 15%) and parole revocations is \_\_\_\_\_ (ex: 47%) during the first year of parole (*Source: CDCR Facts*). These recidivists pass through the \_\_\_\_\_ Jail and contribute to jail crowding as well.
2. There is a current need to increase the level of programs and services within the County and within the state prisons housing the returning offenders including guidance, direction, training, housing, employment, intervention and preventative counseling, transportation, and supervision to enable adult offenders to be successful in their reentry into the communities of the County.
3. The CDCR and the Office of the \_\_\_\_\_ Sheriff's Department shall work together toward the following goals:
  - a. Improve the reintegration of returning adult offenders from prison and from jail to the communities in the County, reducing crime and recidivism.
  - b. Improve the coordination of current resources, services and programs to cause more effective and efficient deliveries of human services to the returning offenders.
  - c. Improve the intensity and quality of planning, placement and supervision of parolees in order to ensure offender accountability.
  - d. Increase, where necessary, services and programs, including but not limited to needs and risk assessments, pre-employment training, employment placement, substance abuse prevention and intervention, group and individual counseling, interim and long term housing, transportation services to work and to prevention programs, mental health counseling, treatment and related support, and levels of supervision or surveillance.
4. The CDCR and the Office of the \_\_\_\_\_ Sheriff's Department shall jointly plan for a state constructed secure reentry facility in conjunction with a new \_\_\_\_\_ County Jail to house adult offenders. The facility should be designed and constructed to:
  - a. House medium-level custody to lower level custody offenders;
  - b. Provide a maximum of 500-beds, both celled and dormitory style housing;

- c. Support ample programming space for greatly improved reentry and reintegration services and programs;
  - d. Provide administration and office support space for various critical intervention needs of the housed offenders;
  - e. Provide space for medical, dental and psychiatric treatment in compliance with court-mandated standards;
  - f. Share infrastructure costs and services to be determined at a later date by mutual agreement.
5. The CDCR will be responsible for securing the necessary legislative authority and funding associated with the planning, design and construction of such a facility as well as for resources necessary to provide enhanced state supervision to parolees in the County.
6. This Agreement of Cooperation is not intended to be legally binding or to impose legal obligations on either party.
